

IMPORTANT NOTICE

Card Management Service Update

Our Card Management feature is currently unavailable.

Our previous system was discontinued by the vendor, and we are actively working on launching a new and improved solution. In the coming months, card controls will return—integrated directly within Devon Connect—for a more seamless experience.

What you need to know:

You can still use your debit cards as normal.

Fraud protection remains **active**—your card is still protected.

All previous card control settings set on card management have been removed.

The Card Management menu option in Devon Connect has been temporarily removed and will remain this way until the new system is in place.

If you have urgent needs regarding card restrictions or controls, please contact our eBanking team for assistance:
